Hosting Availability

To best match your club with an inbound Journey, we need to know when it is difficult for your club to host. Please remember to consider club activities (like regional conferences) and seasonal climates when selecting which months are bad for your club to host. For example, the hot season in Thailand is March-May and monsoon season is June-October. Therefore, the Thailand clubs should select March-October as bad months to host.

NOTE: If you do not indicate a month as being "bad," then you might be assigned hosting for that month.

Please select all of the months that your club CANNOT host:*

FFI encourages requests from clubs who would like to visit a club they have hosted, or from clubs who would like to host a club they have previously visited. Such requests will be considered if received in writing from both clubs. Please note that in order to ensure a fair planning process and that a balanced pool of hosting is available for everyone, mutual requests are not guaranteed.
